

AWS D1.1 Weld Test

Course Description:

Welding test for individuals seeking D1.1 certification for limited or unlimited thickness and specific location. Testing is administered by CVCC Welding faculty.

Course Outline/Agenda:

D1.1 testing outlines two options for test plate thicknesses: (1.) Limited thickness (3/8" Test Plates), which will qualify for fillet welds on any thickness material and groove welds on 1/8"-3/4" material. (2.) Unlimited thickness (1" Test Plates), which will qualify for groove and fillet welds on 1/8" and greater materials.

Certificate(s):	D1.1 weld tests		
Course Dates:	Start time/End time	Course Number	Cost:
12/4/2021	8:00AM to 5:00PM	50025	Starting at \$275.00

Cost Breakdown:

Assessment/certification	\$ 275.00
Equipment	\$ -
