

Greetings Pirate Family:

I hope all is well with you! I wanted to reach out to you to express my heartfelt thank you to our faculty and staff who have worked diligently to transition to a online or remote instructional and service delivery process and to our students for being patient, flexible, and cooperative with us during this uncertain time.

This email is being sent to update you on some additional resources that have been developed for your convenience. The following tools are available:

- Training videos have been developed and are posted in Blackboard for both faculty and students.
- A Web page has been developed and is available for faculty, staff and student use. This page contains modified plans that address a number of topics. Please check this Web page regularly to stay abreast of updates and resources. The page may be accessed by clicking on the Coronavirus link (included on the red line) on the home page ([www.cv.edu](http://www.cv.edu)) and is included here - <http://www.cv.edu/covid-19-coronavirus/> for your convenience. Please access this Web page for modified plans on advisement, registration, financial aid, counseling and ADA services and much more.

Finally, I want to appeal to you, our Pirate Family and urge you to continue to use extreme caution as you enjoy your week of Spring Break. I ask you not to travel unless it is absolutely necessary. **The number of people being exposed and testing positive to the virus is escalating as we speak and unless you have to be out in the general public, you need to stay at home.** We need to be safe, practice social distancing, practice advised hygiene advisories, and do our part in containing this deadly virus.

Warmest Regards,

Jackie Screws

Chattahoochee Valley Community College
