

MSSC Certified Logistics Technician - CLT

Course Description:

This virtual course is designed to provide students with mid-level technical knowledge of the world of supply chain logistics. It covers the material handling aspect of the global supply chain and describes the mid-level technical knowledge that front-line material handling workers should master to perform well. It is designed to give students more practical insight into the industry and how the frontline worker fits into that environment. (Prerequisite -CLA Certification) 30 clock hours

Course Outline/Agenda:

Product Receiving
 Product Storage
 Order Processing
 Packaging and Shipment
 Inventory Control
 Safe Handling of Hazardous Materials
 Evaluation of Transportation Modes
