

MSSC Certified Production Technician (CPT)

Course Description:

CPT covers the four critical production functions, as defined by MSSC's industry-led, nationally validated skills standards, common to all sectors of manufacturing: Safety, Quality & Continuous Improvement, Manufacturing Processes & Production, and Maintenance Awareness. Each area is addressed with a separate assessment. MSSC training and assessments are organized around those four modules. An individual can earn a "Certificate" if they pass one or more assessments. However, they must pass all four assessments to earn the full "CPT" certification. Class delivery includes virtual with E-learning modules. 138 contact hours

Course Outline/Agenda:

The four critical functions are: Safety, Quality Practices & Measurements, Manufacturing Processes & Production, and Maintenance Awareness.
