Mission Statement

Chattahoochee Valley Community College promotes student success and is committed to enriching our community by offering accessible, quality, and engaging educational opportunities through academic transfer, career and technical education, workforce development, and adult education.

Vision Statement

Chattahoochee Valley Community College (CVCC) will be a dynamic, engaged institution of higher learning dedicated to serving the community and students by providing excellent educational, cultural and career opportunities allowing individuals to be successful and achieve their goals. CVCC will provide quality services through innovative practices, state-of-the-art facilities and an understanding of meeting individuals where they are. CVCC will enhance the lives of its students, faculty, staff and the community by:

- Promoting instructional excellence in all program areas;
- Expanding and enhancing programs to meet the needs of the area's workforce;
- Strengthening partnerships to advance the mission of the College;
- Creating a supportive teaching and learning environment;
- Integrating technology to support all programs and services;
- Implementing the use of evidence-based decision-making and
- Providing exceptional student support services.

CVCC Institutional Goals

To achieve its purpose, the College has developed the following goals:

- To offer high-quality educational programs.
- To expand and strengthen program offerings that prepare students for direct entry into jobs at technical, paraprofessional, and entry-level management positions.
- To provide educational and support programs that ensure student success.
- To develop community service and continuing education programs, strengthen links with high schools and community agencies, and promote the economic, educational, and cultural development of the service area.
- To provide and maintain a comprehensive program of advising, counseling, and testing services and extracurricular activities that enrich the cultural , social, physical, and intellectual lives of students.
- To practice broad-based systematic planning of the College's educational programs, academic and student support services, community service programs, and administrative processes.
- To provide state-of-the art technology, infrastructure, and facilities to support the College mission.

2022-2023 Strategic Planning in Retrospect

Developing and executing a strategic plan for Chattahoochee Valley Community College is an important endeavor that involves all departments and activities of the College. This comprehensive plan sets the framework for the College's short-term and long-term goals and action steps for accomplishing the identified vision and core mission of the institution. While the work is challenging, it is paramount to the success of our students and ultimately, the College.

During this year, we have had many major accomplishments to celebrate; however, it must be noted that the effects of COVID-19 are still present and have impacted our progress. The global pandemic has impacted the way we live, educate and learn; however, in the midst of these unprecedented times, the College has evolved and adjusted and is still focused on a

continuous planning and improvement process that is mission critical. In spite of the circumstances, the College is recovering, reengaging, and retooling to meet the needs of our stakeholders. We have remained dedicated to a comprehensive planning process, engaged in structured activities and review processes, and devoted to developing measures for improving our educational delivery and support activities.

As we shape our trajectory for the future, we will remain focused on our mission and true to our ultimate goal of providing the best possible services to the citizens of this region. The information contained in this document provides a context for the strategic initiatives that have been completed during the 2022-2023 academic year and delineates a clear picture of our progress. We are proud of our work and committed to moving forward – stronger.

Strategic Planning

CVCC is committed to planning and assessment practices that focus on continuous improvement. To this end, CVCC supports a process of planning and assessment that represents a cycle of identifying goals, expected outcomes, assessment measures and schedules, recording actual results, and developing plans for improvement based on these results. CVCC's planning and assessment process is broad-based and collaborative.

The development of the *CVCC Strategic Plan* began with input from various College constituents and was published in Fall 2018 and was developed as a three-year plan. As a result of the Coronavirus Pandemic, in July 2021, the Administrative Cabinet extended the Strategic Plan timeline from three years to five years (2018-2023) in an effort to allow for a longer period to assess trends and data.

Strategic Enrollment Management Plan

For 2023/24, the Committee will focus on the development of specific strategies aligned with the 2023-2028 Strategic Plan, to increase enrollment and make pandemic-related adjustments to retention and student success plans for continued pandemic recovery enrollment efforts.

Summary of 2018-2023 Planning Cycles:

Strategic Enrollment Plan

The Strategic Enrollment Management Committee, made up of representatives from across the College, identified enrollment goals through Fall Semester 2021 to align with the 2018-2021 CVCC Strategic Plan. The impact of COVID-19 drastically reduced the College's ability to achieve many of the goals set in the 2018-2021 Strategic Plan. As a result, the Strategic Plan was revised and enhanced to ensure that measures for success are clearly defined, measurable, and addressed needs magnified as a result of the pandemic, and extended to 2023 in alignment with the 2018-2023 CVCC Strategic Plan. This extension provided the College an opportunity to recalibrate its approach to success as work on goals continued.
